

### RSP-100, Annex D – Modular Approval Attestation

Product Information			
(1) Certification Number consisting of Company Number and UPN (maximum 11 characters) :			IC:
(2) Hardware Version Id Number (HVIN):    *Model Number*			
(3) Product Marketing Name (PMN):			
(4) Firmware Version Id Number (FVIN):			
Modular Checklist/Information			
<input type="checkbox"/>	The radio elements shall have the radio frequency circuitry shielded. Physical / discrete and tuning capacitors may be located external to the shield, but must be on the module assembly;		
<input type="checkbox"/>	The module shall have buffered modulation/data input(s) (if such inputs are provided) to ensure that the module will comply with the requirements set out in the applicable RSS standard under conditions of excessive data rates or over-modulation.		
<input type="checkbox"/>	The module shall have its own power supply regulation on the module. This is to ensure that the module will comply with the requirements set out in the applicable standard regardless of the design of the power supplying circuitry in the host product which houses the module.		
<input type="checkbox"/>	The module shall comply with the provisions for external power amplifiers and antennas detailed in the applicable RSS standard. The equipment certification submission shall contain a detailed description of the configuration of highest antenna gain for each type of antenna.		
<input type="checkbox"/>	The module shall be tested for compliance with the applicable standard in a stand-alone configuration, i.e. the module must not be inside another product during testing.		
<input type="checkbox"/>	The module complies or will comply with applicable RSS-102 exposure requirements, in its intended configuration/integration in a host.		
If a module(s) does NOT meet one or more of the above listed requirements, the applicant may request Limited Modular Approval (LMA). For LMA, please state details about why the above requirement(s) could not be met; and state how control of the end product, into which the module will be installed, will be maintained by the applicant / manufacturer, such that full compliance of the end product is always ensured:			
Name and Title of the Applicant  (Please Print or Type):		<input type="checkbox"/> Applicant    (or)  <input type="checkbox"/> Authorized Agent
